PROFILE

Accomplished and confident mobile app developer with over 1 year of experience in delivering innovative, cross-platform applications using the Flutter framework. Possess a deep understanding of programming languages such as Python, JavaScript, HTML, and CSS, and a broad knowledge of technology tools and frameworks, including Shared Preferences, Hive DB, SQL, and GetX controller. Skilled in C and C++ and well-versed in Linux OS and Kali Linux, with a strong command of Linux commands. Committed to staying at the forefront of the latest technologies and trends, particularly in the areas of full-stack development and cybersecurity using machine learning and AI. Seeking a challenging role that leverages my extensive technical skills and passion for innovation to drive results and make a significant impact on the organization.

Also, I have strong knowledge of UI/UX and designed web pages using Figma.

KEY SKILLS

- I quickly identified and fixed a bug in a critical piece of code that was causing the app to crash. I devised a creative solution to a problem that was preventing the app from working on a specific device. Likewise, I worked with a team of developers to solve a complex problem preventing the app from being released on time.
- Wrote clear and concise documentation for Flutter apps. Gave presentations to technical and non-technical audiences about Flutter development. Worked effectively with a team of developers to create Flutter apps. Resolved conflicts and disagreements constructively. Gave and received feedback constructively.
- Worked on a team of developers to create a successful mobile app. Collaborated with designers, engineers, and product managers to develop a new product feature. Presented project updates to stakeholders and received positive feedback. Resolved conflicts between team members in a constructive manner. Gave and received feedback in a positive and constructive way.
- Effectively prioritize tasks and set realistic deadlines. Manage distractions and stay focused on the task at hand. Able to work independently and as part of a team to meet deadlines. Experienced in using project management tools and software. Proven ability to meet deadlines and deliver high-quality work.
- Successfully identified and fixed a critical bug in a production app that was causing crashes for users. The bug was fixed within 24 hours, and no users were affected.
- Developed a new Flutter app from scratch in 3 months, on time and within budget.
- Successfully transitioned from developing native apps to Flutter, and was able to deliver a high-quality app on time and within budget.
